

# Fractional CISO (FC)

- **Purpose:** Its purpose is to provide the CISO leadership to organizations that are not in a position to hire a full-time employee. There may be many reasons for why a fractional CISO makes sense including as a stopgap to find a permanent person for the role. SCG has the background, experience and with the team can serve to fill these roles.
- **Level of Effort: It can range from half to quarter the time of a full time position. Owner:** The owner of the deliverables would be at the appropriate C-Level executive; Chief Privacy Officer (if there is one) would be the most direct owner.
- **Key Elements of the Work:**
  - Responsible / Accountable: To one of the C-Suite leaders for implementation of the cybersecurity plan and to achieve the target security / privacy posture that includes compliance
  - On Site – Hands On: The fractional CISO will spend the majority of the agreed-to fraction on site interacting with the leadership and with the assigned team members.
  - Specific Goals and Objectives: The SCG fractional CISO will have measurable goals and objectives worked out as part of the agreement.
- **The Solution Package:** The list of deliverables for this service offering includes:
  - Deliverable 1: Agreement for Goals and Objectives
  - Deliverable 2: Majority on-site presence based on the fraction of the agreement
  - Deliverable 3: Achievement of the goals and objectives
  - Deliverable 4: Management Progress Reports

## Features of the FCs
