

Disaster Recovery (DR)

- **Purpose:** flexible, collaborative and responsive disaster recovery plan that mitigates risk and protects vital infrastructure.
- **Align to your business recovery priorities:** First identify and validate the business DR priorities. Then develop the phased implementation plan starting with Phase One “you have 24 hours.” Subsequent phases follow a maturity cycle to achieve full DR readiness.
- **RTO and RPO:** Meet even the most challenging Recovery Time Objectives (RTOs) and Recovery Point Objectives (RPOs). Solaris Consulting has a complete portfolio of disaster recovery solutions from requirements and planning to full restoration of mission-critical applications and services.
- **Flexible:** Portfolio of physical, virtual, and cloud-based disaster recovery solutions for both Enterprise and Small Business or workgroups
- **Collaborative:** Works with your team to provide the right solution for your organization.
- **Responsive:** Response to an event by an experienced practitioner with real-world recovery experience
- **The Solution Package:** Every solution customized to your organization Disaster Recovery Plan
 - Deliverable 1: Gap/Maturity Analysis and Roadmap for Improvement
 - Deliverable 2: Data Center Vulnerability Analysis
 - Deliverable 3: RTO/RPO Validation (may include a Business Impact Analysis)
 - Deliverable 4: Critical Applications and Dependency Mapping
